

## Audinate - Dante Virtual Soundcard

Um einen nutzbaren Lizenzschlüssel für die Dante Virtual Soundcard (DVS) zur erhalten, benötigt man zwei Dinge:

1. Einen Account bei Audinate  
Sollte noch kein Account bestehen, kann dieser unter:  
<https://my.audinate.com/user/register> eingerichtet werden.
2. Den entsprechenden DVS TOKEN (Registrierungscode)  
Dieser wird beim Kauf auf dem Lieferschein/Rechnung unter der Position „AUDDVS Dante Virtual Soundcard (DVS)....“ Aufgeführt.

Sind beide Punkte erfüllt, kann man unter <https://my.audinate.com/redeem-dvs> mit dem erhaltenen Code eine Lizenz registrieren.

### Redeem DVS Token

A DVS (Dante Virtual Soundcard) token is a unique code that can be redeemed below for a fully-functional Dante Virtual Soundcard license ID, which can then be used to activate Dante Virtual Soundcard. A DVS token can not be entered directly into the license field on the Dante Virtual Soundcard application, it must be redeemed here first to produce a license ID.

DVS tokens are bundled with some Dante products. If your product packaging includes a 'Download Your Software' card like the one below, your DVS token is shown at the bottom of the card.

To redeem your DVS token for a license ID:

1. In the 'Token' field below, enter the token exactly as you see it printed (in the correct case, and including the dashes/hyphens).
2. Enter a description for the license in the 'License Description' field. This will appear in the Licensing tab of the Dante Virtual Soundcard application, once it is activated. This is an optional step.
3. Click 'Submit'.

Your license ID will be displayed. You can copy and paste the license ID directly into the Dante Virtual Soundcard licensing screen, or copy it into a text file or email for later use.

**Note:** You can view your Dante Virtual Soundcard license/s at any time in the 'My Products' tab of your [account page](#) on this website.

Token

Format is XXXXX-XXXXX-XXXXX-XXXXX-XXXXX or XXX-XXX-XXX

License Description

Optional: Further detail about the license

Wenn man mehrere Lizenzen aktiviert, macht es ggf. Sinn unter „License Description“ z.B. den Zielcomputer der DVS einzugeben (Beispiel: Zuspieldrechner 5)

Unter „My Account“ und dann „My Products“ bekommt man alle Lizenzschlüssel angezeigt und kann Sie entsprechend für die Aktivierung der DVS nutzen

Optional: Further detail about the license
